

MONEYKEEL · THE DEFINITIVE PAIR V2 · 2026-08-04 (THREE SUPER-GROUPS: CASH · INVESTMENTS · PERSONAL PROPERTIES)

Net worth = what I have · Performance = how it's doing

The division, drawn: every element sits on exactly one tab. Ownership dollars (values, debts, classes, cushion) live ONLY on Net worth. Returns, comparisons, and winners live ONLY on Performance. Both tabs open the same account and holding pages underneath — one system, two questions. Numbers reconcile: Investments group 348,495 + 5,819 + 838 = 355,152 = Performance's portfolio, by definition; own 8,000 + 355,152 + 450,000 = 813,152; return 6,890 + 700 + 430 + 120 = 8,140 ✓.

YOUR NET WORTH

\$395,152

▲ up \$2,110 this year

as of Aug 4

Your path ahead (from your Plan): on course for ~\$890,000 by 92 › ⓘ

WHAT YOU OWN \$813,152

▶ Cash \$8,000

▼ Investments

measured on Performance

 \$355,152

Stocks / ETFs \$348,495

Bonds & CDs \$5,819

Cash in investment accounts \$838

▶ Personal properties \$450,000

8,000 + 355,152 + 450,000 = \$813,152 · the Investments group IS what Performance measures — same number, by definition (marked: investment-account cash counts here, not under Cash — your call).

WHAT YOU OWE −\$418,000

🏠 Home mortgage −\$412,000 ›

NET WORTH — "What do I have?" Only ownership: values, classes, debts, the cushion, the math line. **Not one return, percent-gain, or market word appears here.** Wondering how it's doing? That's the other tab's only job.

PERFORMANCE — "How is it doing?" Only returns: the period return with its four-line breakdown, the honest market comparison, per-holding returns and weights. **MARKED PROPOSAL:** the dollar-VALUE column leaves this table (values live on Net worth; weight gives the context) — approve or keep the value column.
